

## 21 - Returning stolen money when amount unknown

---

### **the question**

I used to steal money on and off from my father's pocket. Now I do not know how much I stole, nor can I admit to him now. What shall I do?

### **Detailed answer**

Praise be to Allah.

Try and estimate to the best of your memory the total amount you have stolen, and return it. And there is no harm if you return it as secretly as you took it.
